

ONE KIND OF COMMUNITY ACTION

Lincoln County FISH (Friends in Service Helping) is a volunteer driving service for residents of Lincoln County. All rides are free, with drivers donating their time, vehicle and gas. The destinations (both distance and purpose) are only limited by the drivers' willingness. Once a request is received (LC FISH phone is 350-9808), all the drivers are notified by a group email. This system has worked well as each driver determines his or her availability. Some do many rides and others only a few, but all have made new connections that have enriched their lives, and met a real need.

We are always looking for more drivers, so if this ministry speaks to you, please call or email Edie Vaughan – 677-6085, evaughan@tidewater.net, for more information. And of course, we hope you'll spread the word to anyone who might need a ride.

THANK YOU!
